

HC BILL 25-4

Pilot Infrastructure and Agriculture Grants Act of 2026

An Act to establish temporary pilot public grant funds for public lighting, metro renovation and expansion, blue ice transit construction, and agricultural development; to authorize the transfer of money from the Reserve Fund into dedicated Ministry of Infrastructure grant funds; to regulate grant applications, spending, auditing, material pricing, project direction, and project reporting; and to provide for the expiration, closure, and return of unused grant funds.

BILL · 25TH TOTEMIAN PARLIAMENT

Introduced June 1st, 2026

Nuxart (Member of the House of Commons, Workers' Reformist Party)

Be it enacted by the Emperor's most Excellent Imperial Majesty, by and with the advice and consent of the Lords and Commons, in this present Parliament assembled, and by the authority of the same, as follows:

Chapter 1 - General Provisions

1. This Act may be cited as the Pilot Infrastructure and Agriculture Grants Act of 2026.
2. The purpose of this Act is to create temporary pilot grant programs for infrastructure, transportation, safety, and agricultural development within Totemia and to evaluate whether such grant programs should be expanded in the future.
3. The grant programs created under this Act shall be administered through the Ministry of Infrastructure.
4. The grant programs created under this Act shall be funded by money transferred from the Reserve Fund into dedicated temporary funds.
5. The dedicated temporary funds created under this Act shall be named as follows: (a) Blue Ice Grants; (b) Public Lighting Grants; (c) Metro Renovation Grants; (d) Agriculture Grants.

6. These funds shall exist only for the purposes stated in this Act and shall be closed once their funding is exhausted, expired, returned, or the projects are considered closed.

Chapter 2 - Public Lighting Grant Program

1. A Public Lighting Grant Program is hereby established.
2. The Public Lighting Grant Program shall have a maximum allocation of five thousand Shillings (5,000 SL).
3. The Public Lighting Grant Program shall be used for lighting areas within or near the capital where mobs commonly spawn or where public safety requires lighting improvements.
4. Public Lighting Grant funds may be used for: (a) labor costs; (b) lighting materials; (c) supporting materials needed to place or protect lighting; (d) purchases of required supplies from the government, where needed.
5. Public Lighting Grant funds shall only be used for the purposes listed in this Chapter.
6. A person receiving funding under this Chapter must use the funding only for the approved lighting project.

Chapter 3 - Metro Renovation and Expansion Grant Program

1. A Metro Renovation and Expansion Grant Program is hereby established.
2. The Metro Renovation and Expansion Grant Program shall have a maximum allocation of twenty-five thousand Shillings (25,000 SL).
3. The Metro Renovation and Expansion Grant Program shall be used to improve, repair, beautify, renovate, or expand the metro system.
4. Metro Renovation Grant funds may be used for: (a) station safety improvements; (b) lighting support; (c) station beautification; (d) pathway connections to nearby cities or important public areas; (e) expansion of metro lines; (f) labor costs; (g) materials needed for approved metro work; (h) purchases of required supplies and tools from

the government, where needed.

5. A person receiving funding under this Chapter must use the funding only for the approved metro renovation, improvement, connection, or expansion project.

Chapter 4 - Blue Ice Transit System Grant Program

1. A Blue Ice Transit System Grant Program is hereby established.

2. The Blue Ice Transit System Grant Program shall have a maximum allocation of fifty thousand Shillings (50,000 SL).

3. The Blue Ice Transit System Grant Program shall be used for the creation, expansion, and development of an above-ground blue ice transit system.

4. Blue Ice Grant funds may be used for: (a) above-ground station construction; (b) bridges; (c) tunnels; (d) blue ice placement; (e) pathway connections to nearby cities or public areas; (f) labor costs; (g) materials needed for approved blue ice transit work; (h) purchases of required supplies from the government, where needed.

5. If a continuous blue ice line is built, the line must remain on the same Y-level at all points and no deviations, exceptions, or changes in elevation shall be permitted.

6. Stations must be built first before the main continuous line is considered complete.

7. Every station must be made reasonably safe for public use.

8. Station safety shall include: (a) proper pathway connection to the nearest city, settlement, road, station, or public access point where reasonable; (b) lighting protection within fifty (50) blocks from the center of the station to reduce mob spawning; (c) gates or barriers to prevent accidental falls; (d) signs where needed to identify stations, routes, directions, or warnings; (e) safe access points for entering and leaving the station.

9. If a station is built as part of a fully continuous blue ice path, the station must include a reasonable slowing or stopping design.

10. A slowing or stopping design may include water, golden pressure

plates, signs, gates, or other reasonable station-control materials.

11. Buttons must be placed on top of blue ice where needed to prevent mob spawning on the transit line.

12. The blue ice line must be covered with reasonable lighting protection to reduce mob spawning along the route.

13. A person receiving funding under this Chapter must use the funding only for the approved blue ice transit project.

Chapter 5 - Agriculture Grant Program

1. An Agriculture Grant Program is hereby established.

2. The Agriculture Grant Program shall have a maximum allocation of thirteen thousand Shillings (13,000 SL).

3. The Agriculture Grant Program shall be used to support farms, farming projects, agricultural development, and the growth of communities.

4. Preference and expedited review may be given to Agriculture Grant applications that: (a) support new communities or developing communities; (b) expand agricultural capacity within growing settlements; (c) introduce semi-automatic crop farming designs; (d) improve agricultural efficiency, output, sustainability, or food access.

5. Agriculture Grant funds may be used for: (a) bone blocks; (b) hoes; (c) shovels; (d) seeds; (e) sugar cane; (f) fences; (g) gates; (h) building materials; (i) redstone materials for farm automation; (j) labor costs; (k) purchases of required supplies from the government, where needed.

6. Semi-automatic farming projects supported under this Chapter may include redstone-assisted harvesting, collection systems, crop cycling systems, or other designs that reduce manual labor while maintaining player involvement.

7. Any applicant seeking funding under this Chapter must provide a short project statement explaining: (a) what the funding will be used for; (b) what type of farm or agricultural project is planned; (c) whether the project supports a new or developing community; (d) whether semi-automatic systems or automation features will be used.

8. A person receiving funding under this Chapter must use the funding

only for the approved agricultural project.

Chapter 6 - Grant Applications and Website Transfers

1. Any person applying for grant funding under this Act must be registered on the official website.
2. Grant funding shall only be transferred through the official website.
3. Grant funding must be transferred through the website for auditing, permission control, and recordkeeping purposes.
4. A grant applicant must provide a basic cost breakdown when requesting funding.
5. The cost breakdown must include, at minimum: (a) labor costs; (b) material costs; (c) any government-purchased supply costs, where applicable.
6. The cost breakdown does not need to be overly detailed, but it must be clear enough for the government to understand how the requested funding will be used.
7. A grant applicant may only receive funding for a project that falls within one of the grant programs established by this Act.
8. Grant funding shall not be used for private spending, unrelated purchases, personal enrichment, or any purpose outside the approved project.

Chapter 7 - Material Pricing and Commerce Records

1. All material costs for projects funded under this Act must follow the prices set forth in the Imperial Stock spreadsheet.
2. For any stackable material listed in the Imperial Stock spreadsheet, the listed price shall be interpreted and applied as the price per full stack of that material unless expressly stated otherwise.
3. If an item does not yet have an official price in the Imperial Stock

spreadsheet, the Emperor is authorized to set a temporary or official price for that item.

4. Any temporary or official price set by the Emperor under this Chapter for a stackable material shall be established and interpreted on a per-stack basis and not on a per-item basis unless expressly stated otherwise.

5. Any price set by the Emperor under this Chapter must be used for grant calculations unless later replaced by a lawful updated price.

6. Any materials purchased with public grant funds must be logged through Commerce as a transaction form.

7. Failure to properly log materials purchased with public grant funds may result in the removal, suspension, reduction, or recovery of grant funding.

8. The purpose of the Commerce transaction form requirement is to prevent misuse, protect public funds, and preserve a clear record of public spending.

Chapter 8 - Imperial, Financial, and Infrastructure Oversight, Audits, and Announcements

1. The Emperor shall retain final authority over the grant programs created under this Act, and the Minister of Finance and Head of Infrastructure shall be authorized to conduct oversight within their respective duties.

2. The Emperor, Minister of Finance, and Head of Infrastructure are authorized to review grant applications, request more information, inspect project plans, and set reasonable conditions for grant approval or continued funding. Final approval or denial of grant funding shall remain subject to lawful authority.

3. As a condition of approval or continued funding, the Emperor, Minister of Finance, or Head of Infrastructure may issue project directives to a developer receiving grant funding. Such directives may include requirements, instructions, design directions, spending limits, route directions, reporting requirements, or other lawful orders connected to the approved project.

4. Project directives issued under this Chapter may include: (a) defining

the scope of work; (b) determining project priorities; (c) requiring specific routes, layouts, designs, architectural standards, material choices, or design changes; (d) determining where a project begins and ends; (e) requiring connections to specific cities, stations, settlements, or public infrastructure; (f) requiring modifications necessary to align with government planning objectives, public safety, financial responsibility, or infrastructure coordination; (g) requiring progress updates, proof of work, screenshots, coordinates, plans, or other reasonable project records.

5. Developers receiving grant funding must comply with lawful project directives, requirements, directions, and orders issued under this Chapter.

6. The Emperor, Minister of Finance, and Head of Infrastructure are authorized to audit grant recipients and inspect the progress, spending, design, route, layout, safety, and condition of projects funded under this Act.

7. The Emperor may retract, suspend, reduce, or recover grant funding, and the Minister of Finance or Head of Infrastructure may recommend such action, if: (a) the developer is not making reasonable progress; (b) the developer fails to provide timely updates; (c) the developer fails to provide proof of work; (d) the developer spends funds unwisely; (e) the developer uses funds for unauthorized purposes; (f) the developer fails to log required Commerce transaction forms; (g) the project is abandoned; (h) the developer refuses to comply with lawful project directives, requirements, directions, or orders; (i) the project is completed and leftover grant funds remain unused.

8. Developers who receive grant funding must provide timely updates and proof of work when reasonably requested by the Emperor, the Minister of Finance, the Head of Infrastructure, or another lawful Totemian government authority.

9. Grant funding may include reasonable labor compensation where labor costs are included in the approved cost breakdown.

10. A dedicated channel, public notice, or announcement must be made regarding the grant programs created under this Act.

11. The announcement must include:

(a) the total amount allocated to each grant program;

- (b) the purpose of each grant program;
- (c) the requirements to apply;
- (d) the website registration and website transfer requirement;
- (e) the Commerce transaction form requirement;
- (f) the expiration date for grant funding.

Chapter 9 - Funding, Expiration, and Closure

1. The Ministry of Infrastructure shall create and maintain the following temporary grant funds for the administration of this Act: (a) Blue Ice Grants Fund — fifty thousand Shillings (50,000 SL); (b) Public Lighting Grants Fund — five thousand Shillings (5,000 SL); (c) Metro Renovation Grants Fund — twenty-five thousand Shillings (25,000 SL); (d) Agriculture Grants Fund — thirteen thousand Shillings (13,000 SL).

2. The total amount authorized to be transferred from the Reserve Fund under this Act shall not exceed ninety-three thousand Shillings (93,000 SL).

3. The amounts listed in section 1 represent the maximum funding available for each grant program and shall not be combined unless authorized by lawful authority.

4. Funding support for the grant programs created under this Act shall expire on July 31, 2026.

5. After July 31, 2026, no new grant funding shall be provided under this Act unless renewed by lawful authority.

6. When grant funding expires, any money remaining inside the temporary grant funds shall be restored to the Reserve Fund.

7. Funds already distributed before expiration must continue to be used only for the approved project purposes.

8. If a project is completed after review and auditing by Totemian government authorities, leftover grant funding may be taken back by the government.

9. The temporary funds created under this Act shall be deleted, closed, or disabled once: (a) the funding has fully run out; (b) the funding has

expired and been returned to the Reserve Fund; (c) the projects are considered closed; (d) the government determines that the fund is no longer needed.

10. Nothing in this Act prevents the government from auditing, reviewing, or recovering improperly used grant funds after the expiration date.
